#### That You Can Do Better

No use to worty about the price of cetton. Its true cotton is selling for less-you can buy goods here for less too.

In almost every instance merchandise in our line h a advanced from 10 to 50 per cent. all of this is due to the fact that almost every thing we sell is either IMPORTED or much of the material its made of is imported. If the war continues long, goods will not only be higher, but in many lines, they cannot be bought at all, for we simply cannot get them from Germany, France, England and the other countries that are engaged in war fare—commerce in these countries is, as you know, at a standstill.

We could, if we would do it, advance our prices from 10 to 50 per cent. and make more ready money. BUT WE ARE NOT GOING TO DO IT. Nothing That We Have On Hand Now Will Be Advanced One Cent.

# ALABAMA'S BEST BUSINESS COLLEGE

Welcomes You to Our Fair.

in All the Great Enterprises There Are Different Elements at Work, And Our Part of This, Our First Fair, is Educational Advancement of the Great Southeast,

In 1996 an alien organization opened a business college in Dothan, but their views and business principals were foreign to our ways of thinking and living-At the end of about three years, said Dothan Business College "Went to seed."

A native of Alabama took over the remains of the old school by paying their past due rent, and then the Campbell Institute was born. In 1916 we had our beginning, which the lonely baby camel represents at the top of cuts in the center of this page. 1911 shows the same camel as he begins to feet his keeping and realizes that the fields are ripe unto the harvest. 1912 shows the same camel as he is gradually developing and and coming unto his own. 1913 gives you an idea of what careful, conscientious and painstaking work will do when surrounded by proper environment. The largest and full grown camel pictures the college in 1914 when it has attained its majority and taken its place as Alabama's BEST BUSINESS COLLEGE.

Hundreds of boys and girls assemble here annually from our best homes, and lasting friendship is formed. The most modern and practical methods of handting business is learned as well as Shorthand, Typewriting and their elementary subjects.

Our students are holding important positions from Arizona to the Atlantic and from the halls of the United States Congress to the Keys of Florida.

The Dothan Fair is to have its beginning this year and we hope its growth will equal or exceed that of the Campbell Institute.

The Burning Question

#### What Can You Do?

Go Into a Business House Today Apply for a position and you will not be asked "What do

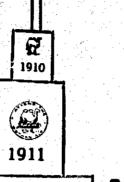

you know?" but

"WHAT CAN-YOU DO?"-

You may have been well drilled in Greek, Latin, History, Algebra. Geometry and all the general branches of education, but

"Can You Do the Work the World Wants Done?"

WAR. WAR. WAR. What Will The Outcome Be?

Never before in the history of man has there been such a titanic struggle between the great powers of earth. Leading nations are locked in a death embrace destined to end in complete annihilation of one side and an unavoidable partial destruction of the other.

> These great powers are dashing at each others throats, determined to leave death, wreck and ruin in their wake. Headless of their com mercial obligations and their wents common to all men, they ere war crazy in the fullest sense. Their factories are closing their commerce is neglected, and all business with them is at a standatill. Here and now is America's opportunity and we are going to make good of this chance. As much as we deplore poor Europe's tria's at present, we are bound to stand by and lend a helping hand even though it is for profit, America as a whole is down, commercially speaking, and this fact alone proves we have been up. If we had not been up we could never have been down, and the fact that we were up once is sure sign we will rise sgain Mark this prediction: Within six months from now the greatest wave of prosperity that we have ever experienced will be sweeping over our naion, and the great Southeast will share in this prosperity, Americans are distinctively a commercial people and here is our opportunty to assert the supremacy already virtually ours. But young men, young man, if you are not already prepared with some good vocational training, you are standing in your own light if you do not come to us now and get ready to assist in the greatest era

> > of opportunity our country has ever seen.

Your chance, your plan to resp an abundant harvest when the time comes is now resting with you and depending upon your preparation.

TO WHOM IT MAY CONCERN.

We take pleasure in recommending to the public, se worthy a gentleman as the houser, Mr. J. D. Campbell, whom we have known for neveral years, and who has been in our employ for almost two years as Principal of our Bookkeeping and Shorthand Departments of one of our schools.

Mr. Campbell leaves us of his own accord, and eartist with bins our very best wishes. He is a splendid business man, and will do well whatever he undertaken. Very respectfully.

If you think of building in Dothan, you can't help thinking of the above named firm. There is a reason. What is it? About eight years ago H. H. Brown came to Dothan looking for a location to enter the building business. After looking over the situation carefully, and seeing that Dothan had great natural advantages, was a growing town in a fine agricultural country, decided that this was the place to stop. Soon after getting his family here Mr. Brown began building, and has been busy almost without intermission

Later Mr. J. J. Flowers, become a partner in the business, and the firm name of Brown & Flowers, has been a familiar one in South East Alabama, as well as South West Georgia, and part of Florida, as we do work throughout this section of country

It has never been the policy of this firm to do cheaper work than any one else, but to do better work for the money; in other words to do the best work, and to give a dollar's worth for a dollar.

Mr. Brown and his three sons are all practical mechanics and have had much experience on a number of the best buildings of several South Ala. and Fla. cities, in almost all lines of the building trade. We are prepared to build any thing you may want from the finest bank or office building a fine colonial home, or a pretty bungalow, with all the conveniences and pretty decorations that the ladies like, down to a substantial warehouse or barn.

We carry the largest stock of wall paper and decorations of any nouse in Sout East Ala., We have in our employ expert painters and paper hangers. We will either sell wall paper, mouldings etc. Or we will contract for complete job. labor and material. If you expect to paper your house we can save you money.
